

Възможност за работа в DXC Technology

DXC Technology (NYSE: DXC) is the world's leading independent, end-to-end IT services company, helping clients harness the power of innovation to thrive on change. Created by the merger of CSC and the Enterprise Services business of Hewlett Packard Enterprise, DXC Technology serves nearly 6,000 private and public-sector clients across 70 countries. The company's technology independence, global talent and extensive partner alliance combine to deliver powerful next-generation IT services and solutions. DXC Technology is recognized among the best corporate citizens globally.

In December 2018, DXC announced its plans to open a Digital Transformation Centre in Sofia, Bulgaria, with the aim of advancing digital innovation and delivering economic and social impact outcomes.

By creating a space for the incubation of ideas and learning, the Digital Transformation Centre in Sofia will spark new conversations and encourage spur-of-the-moment brainstorms which lead to innovative solutions that solve real business challenges faced by enterprises.

We are growing our team with people enjoying modern, rapidly changing IT technologies and customer interactions. It doesn't matter if you have years of IT experience or just started your professional career some years ago. It is about having recent experience with application architectures on public clouds (as AWS, MS Azure, GCP, etc.), good communication skills and a background in development of applications. We offer a great platform for motivated professionals who want to work in a company that enables you to work with various customers to become digital.

We are currently looking to hire:
