14. Assessment methods and criteria:

The course ends with an *exam*. The exam takes the form of a test on theoretical material and practical tasks, taking into account the activity of students during the learning process during the semester. The individual and team work of the student during the semester is reported - current control during lectures and seminars (course work).

1.Requirements for the assessment of the six-point system

The exam passes as a test on the theoretical material and practical tasks, taking into account the students' participation during the semester. The evaluation of the results is based on the following predefined criteria:

- up to 30% true answers – Fail 2;
- up to 40% true answers – Satisfactory 3;
- up to 50% true answers – Good 4;
- up to 60% true answers – Very good 5;
- over 70% true answers – Excellent 6.

2. Formation of the final mark

The final grade is formed on the basis of the results of the on-going control during the semester (course work), plus the final test results using a point system (Table 1).

Table 1.

Number of points	Assessment According to the 6-point Scale System
0 – 20	Fail 2 (F)
20 – 39	Fail 2 (FX)
40 – 49	Satisfactory 3.00 (E)
50 – 59	Satisfactory 3.00 (D)
60 – 69	Good 4.00 (C)
70 – 84	Very good 5.00 (B)
85 – 100	Excellent 6.00 (A)

15. Language of instruction: *Bulgarian*
