Welcome to the University of Telecommunications and Post

Prof. Miglena Temelkova, Ph.D
Rector of UTP

The University of Telecommunications and Post (UTP) is a leading Bulgarian higher education institution in the fields of telecommunications, computer sciences, and engineering. Founded more than 140 years ago it remains faithful to its mission to educate and train engineers and professionals with competencies in the field of Information and communication technologies, computer science, cybersecurity, and many other modern specialties giving the graduates rare and highly appreciated skills.

We are proud of our partnerships with some of the world's leading Hitec companies such as AI, Huawei, Siemens, and many others. Our multidimensional cooperation with companies results in modern teaching facilities and cutting-edge laboratories. Our curriculums mix fundamental engineering knowledge with competencies and skills needed by the modern technology sector.

The internships and mentoring programmes we provide to our students allow them to get in touch with corporations and get as much as possible from the interaction while the corporations are in a position to discover and develop talents within our students as early as possible and to offer them the best development opportunities. Unsurprisingly, nearly 90 percent of our students

find jobs in their specialty before graduation. We are the leading university in the field of computer and communication technology with double-digit growth of students enrolling in that field and is the number one Higher school of choice of foreign students looking for education in that area.

From 2022, UTP offers cooperative „hybrid“ bachelor's programmes in Telemedicine and Software Programming in Medicine along with the Medical University Pleven and Medical University Plovdiv. We developed our third hybrid programme in partnership with the Air Force Military Academy "Georgi Benkovski". Thus we give our students the opportunity to become not just qualified engineers but to acquire knowledge about specific sectors and the opportunity to become the first generation of Bulgarian engineers with interdisciplinary expertise whose competence would provide them remunerations times higher than the average.

For the convenience of the students, UTP provides accommodation in student dormitories, which are part of the campus of the University, located in close proximity both to the study premises and to the UTPs, sports hall in the "Studentski" District, blocks 30 and 32. The student residence blocks are located close to parks, entertainment venues, restaurants and shops. Transport access to the center of Sofia is easy and convenient.

ADMISSIONS 2026

PROFESSIONAL BACHELOR'S

- Cybersecurity in High Technologies
- Wireless Communications
- Computer Administering of Software Applications
- Software Development
- Management and Information Technologies in Telecommunications and Post

BACHELOR'S

- Communication Technologies
- Computer Technologies
- Cybersecurity in High Technologies
- Cybersecurity in Business
- Digital Entrepreneurship and High Technologies
- Digitalization and Public Administration
- Management and AI
- Renewable Energy Technologies
- Drone Operations Management
- Management in Telecommunications and Post

INNOVATIVE HYBRID BACHELOR COURSES

- Software Development in Medicine – in collaboration with Medical University – Pleven and Medical University – Plovdiv
- Telemedicine – in collaboration with Medical University – Pleven and Medical University – Plovdiv
- Communication Systems in Air Traffic Control – in collaboration with "Georgi Benkovski", National Air Force Academy

MASTER'S

- Information Technologies
- Communication Networks And Cyber Crime Investigation
- Mobile Communications and Internet
- Digital Leadership
- Smart Management of Regenerative Technologies
- Management of Services
- Smart Leadership
- Digital Social Technologies

IMPORTANT DATES FOR APPLYING

Online applications; Traditional paper submissions	From January 12 th to June 30 th 2026
Qualifiers	July 2 st 2026
Enrollment of qualified applicants	From July 3 th to July 17 th 2026
Document submission for additional admissions	From July 20 th to September 1 st 2026
Qualifiers	September 2 nd 2026
Enrollment of qualified applicants	From September 3 th to September 11 th 2026

DATES FOR ENTRY EXAMINATIONS

JANUARY 2026	12.01.-17.01.2026 г.
FEBRUARY 2026	16.02.-21.02.2026 г.
MARCH 2026	09.03.-14.03.2026 г.
APRIL 2026	20.04.-25.04.2026 г.
MAY 2026	11.05.-16.05.2026 г.
JUNE 2026	08.06.-13.06.2026 г.; 22.06.-27.06.2026 г.
JULY, AUGUST and SEPTEMBER 2026	IN CASE OF WILLING APPLICANTS
